

C.H.I. Garage Door Models 2206 & 4206

Model 2206 -- Short Raised Steel Panel, Urethane Insulated

Model 4206 -- Long Raised Steel Panel, Urethane Insulated

Construction

- Durable, rigid sections offered through the foamed in place construction which creates a homogenous panel of the front and back skins and urethane.
- Long-lasting durable rollers assure consistent, efficient operation.
- Heavy-duty 14-gauge hinges with "wide body" pattern for greater stability and longer life.
- Resilient baked on polyester paint, factory finished for years of maintenance free protection.
- Concealed steel plates run continuously from top to bottom of each section for fastening hardware.
- White painted end stiles.
- Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl.
- A section joint seal enhances the doors ability to restrict air infiltration and assists with heating and cooling needs.

Insulation

- Foamed in place urethane core.

- Thermally broken for optimum weather protection.
- Insulating R-value of 13.4.
