

C.H.I. Recessed Panel Garage Door Models 2298, 2296 & 2294

Model 2298 -- Short Recessed Steel Panel, Insulated

Model 2296 -- Combination Recessed Steel Panel, Insulated

Model 2294 -- Long Recessed Steel Panel, Insulated

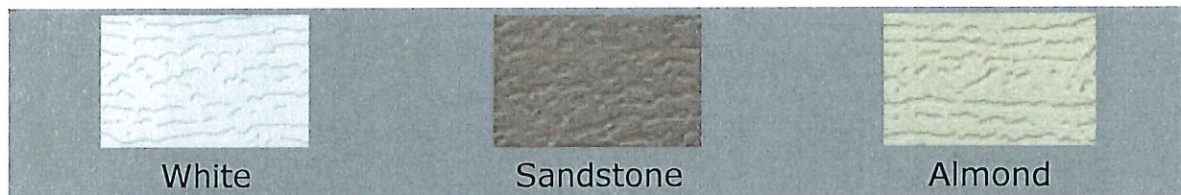

Construction

- Double-sided steel doors are 2" thick.
- Door exterior sections are formed from 25-gauge galvanized draw quality steel and the interior is 27-gauge steel.
- Extra-heavy paint system consists of .25 mil. primer with rust inhibitor and a .75 mil. coating of baked-on polyester paint.
- Optional glass is available in clear glass or glue chip pattern.
- Custom designed springs for smooth operation and easy lifting.
- Section joints are roll-formed into a tongue-and-groove design which produces a superior weather seal.
- White, powder-coated hardware is available as an option.
- Long-lasting durable rollers assure consistent, efficient operation.
- Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl.

Insulation

- Skins filled with foamed-in-place polyurethane to better safeguard against the elements and add structural rigidity to an already durable model.
- Insulating R-value of 12.35
