

## C.H.I. Garage Door Models 4250, 4251 & 4255

**Model 4250** -- Long Raised Steel Panel, Uninsulated

### ***Construction***

- Door sections are formed from heavy, 25-gauge galvanized draw quality steel.
- Section joints are roll-formed into a tongue-and-groove design which produces a superior weather seal.
- Inside stiles are made of galvanized steel and stile holes are "dimpled" for increased holding power.
- Extension or torsion springs are individually computer-calibrated to lift your door.
- Extra-heavy paint system consists of .25 mil. primer with rust inhibitor and a .75 mil. coating of baked-on polyester paint.
- Hinges are stamped from galvanized steel in a "wide body" pattern for greater stability and longer life.
- Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl.

**Model 4251** -- Long Raised Steel Panel, Insulated

All of the above plus:

- 1-3/8" polystyrene insulation with a vinyl back cover.
- Insulating R-value of 7.94

**Model 4255** -- Long Raised Steel Panel, Insulated

All of the above except:

- 9/16" polystyrene insulation with a vinyl back cover.
- Insulating R-value of 3.56
